Horror and Wonder at the Ends of the Earth Writers are drawn to the  
unreachable places of the Earth - to the greatest mountains and depths  
of the sea, the most barren deserts, and to the white frozen deserts  
surrounding the north and south poles. In our minds' eyes, the beauty  
and mystery of the ice descends from Poe to the present and into the  
future, an infinite realm of wonder.

This fantasy anthology opens with the tale of the elusive, utterly  
supernatural Ithaqua which roams the North Woods and the wastes beyond  
striking fear in hunters and travelers. Also included are three

stories by August Derleth, and a spectrum of contemporary authors including Brian Lumley, Stephen Mark Rainey, and Pierre Comtois.

Price offers ten new tales and three reprints concerning H.P. Lovecraft's Innsmouth, a seedy little town on the north shore of Massachusetts--home to the hybrids who live there, the strange city rumored to exist nearby under the sea, and those who nightly lurch and shamble down fog-bound streets.

The planet Yith is the home of the Great Race, a place inspiring H.P. Lovecraft and other authors to pen classic tales of travel through Time and Space. In "The Shadow Out of Time" (here with new, purified text) there is implicit a very different view of Homo Sapiens origins, derived directly from the modern mythology of the Theosophical Society. HPL often mentioned Theosophy as a kind of foil and precedent for his own Mythos in his stories. This collection includes tales of Yith both famous and obscure, replete with time travel, mind-exchange, and thrilling vistas of primordial history set in context that enables new readers and long-time Lovecraftian fans alike to enjoy them. Includes short stories by H.P. Lovecraft, August W. Derleth, Richard L. Tierney and many others. This book is part of an expanding collection of Cthulhu Mythos horror fiction and related topics. of Cthulhu fiction focuses on single entities, concepts, or authors significant to readers and fans of H.P. Lovecraft.

The stories in this book evoke a tracery of evil rarely rivaled in horror writing. They represent the whole evolving trajectory of such notions as Hastur, the King in Yellow, Carcosa, the Yellow Sign, the Black Stone, Yuggoth, and the Lake of Hali. A succession of writers from Ambrose Bierce to Ramsey Campbell and Karl Edward Wagner have explored and embellished these concepts so that the sum of the tales has become an evocative tapestry of hypnotic dread and terror, a mythology distinct from yet overlapping the Cthulhu Mythos. Here for the first time is a comprehensive collection of all the relevant tales.

36 DREADFUL POEMS OF COSMIC HORRORS In H.P. Lovecraft's famous poetry cycle, an occultist steals an ancient tome of forbidden lore—but when he begins to read, it takes on a nightmarish journey throughout space, time, and alternate realities. Each dark poem reveals a new horrifying dream-vision, each filled with Lovecraft's signature blend of cosmic horror and alienation. Also included is Lovecraft's incomplete short

story "The Book", where he tried to translate this weird poetry cycle into prose—but, unfortunately, never finished.

Following on from the phenomenal success of NECRONOMICON comes ELDRITCH TALES. Howard Phillips Lovecraft died at the age of 47, but in his short life he turned out dozens of stories which changed the face of horror. His extraordinary imagination spawned both the Elder God Cthulhu and his eldritch cohorts, and the strangely compelling town of Innsmouth, all of which feature within these pages. This collection gathers together the rest of Lovecraft's rarely seen but extraordinary short fiction, including the whole of the long-out-of-print collection FUNGI FROM YOGGOTH. Many of these stories have never been available in the UK! Stephen Jones, one of the world's foremost editors of dark fiction, will complete the Lovecraft story in his extensive afterword, and award-winning artist Les Edwards will provide numerous illustrations for this must-have companion volume to NECRONOMICON.

Eleven Lovecraftian tales by Clark Ashton Smith. Includes The Ghoul, Hunters from Beyond, Ubbo-Sathla, Vulthoom, The Infernal Star, and others. Selected and introduced by Robert M. Price. This book is part of an expanding collection of Cthulhu Mythos horror fiction and
