Visual FoxPro Example Programs and Sample Code
Visual FoxPro is a Microsoft data-centric procedural programming language that subsequently became object-oriented. It was derived from FoxPro (originally known as FoxBASE) which was developed by Fox Software beginning in 1984.

Visual FoxPro - Wikipedia
Visual FoxPro is an object-oriented programming language, as well as a development environment, application platform, and database engine. It started life as FoxBASE in 1984, and had what was — at that time — the fastest database management system available. This was a derivative of the dBase systems designed in the late 1970s.
